

BRANDED SCRIM

Modu-Loc's privacy screening can be used to contain dust and debris on job sites, or to limit visibility of an area - for instance, site trailers or restrooms. Modu-Loc now offers branded scrim options for increased brand exposure and sponsorship opportunities.

VISUAL APPEAL - maintain privacy and contain dust and debris while creating aesthetic appeal and visual impact

CUSTOMIZABLE - various colours and lengths available; can be purchased in rolls or individual banners

QUALITY MATERIAL - materials are rated for outdoor use and covered by a limited warranty

GROMMETED - grommets spaced every 24" for easy installation

The installation of any additional materials or screening to any temporary structure will increase the structural and environmental loads. We recommend using stability accessories such as wind braces or sandbags when hanging screen or banners on our fence.

16 locations throughout Canada providing nationwide service
