

REPAIRABLE BASE

Modu-Loc pegs

Universal pegs

Whether you own Modu-Loc panels or another style of steel mesh temporary fencing, we can supply you with replacement bases that fit your fence system. Removable pegs allow you to replace worn or broken components, and enable you to adapt the bases to your choice of fence system.

SAVE MONEY - Removable pegs allow you to repair broken bases for a fraction of the cost of replacing them

UNIVERSAL - Pegs are available in two styles to fit most types of temporary fence with steel square tube frames

ADAPTABLE - Pegs can be used with other components within the Modu-Loc system to suit unique installation requirements

CONVENIENCE - Whether you require delivery or prefer to pick up, there's a Modu-Loc depot near you

HIGH QUALITY - Bases are heavier and longer than the competition's, and can help stabilize light-duty fence panels

Providing industry-leading site containment solutions nationwide
